

Nexora Technologies — Phishing Response SOP

Synthetic portfolio document for the ResolveAI enterprise knowledge assistant. Fictional content for learning and demonstration.

If you clicked a suspicious link

Stop interacting with the page. Do not enter additional credentials or payment information. Report the incident immediately through the approved security channel.

If credentials were entered

Change the affected corporate password using the approved password management process as soon as possible and report the incident to the security team.

Preserve evidence

Keep the original message when possible. Record the sender address, time received, URL or attachment name, and visible warning or error message.

Escalation

Security may require session revocation, endpoint inspection, or account monitoring depending on the incident.
